FIELD BOUNDARY

1

On the east side of **Worthing Road** take the signed public footpath adjacent to "Martindales" through to Blakes Farm Road. Cross the road and continue on footpath opposite. The footpath bears right and follows the hedge line alongside Southwater By-pass. Go over a stile and up the steps to the road bridge. Turn left along the pavement as far as the entrance to **Kings Lane** Cul-de-Sac.

2

Cross the road on your right (**Southwater Street**) and take the footpath to go over two stiles and follow footpath to lane. On meeting the lane (**Reeds Lane**), turn left and walk 200m to the T junction and turn right into **Coltstaple Lane**. Cross over and walk along grass verge till you reach a sharp bend in the road.

3

Turn left onto the cycle route (**Pedlars Way**). Keep straight on past **Keepers Cottage** [Where you may hear dogs barking] which is on the right. Continue ahead across the open ground. Ignore the first finger post on the right after 230m.

4

At the next finger post, a further 100m continue on the bridleway down-hill for a further 530m.

5

Here you will see a finger post on the left pointing left, take this footpath and go up the bank, turning right by the next finger post. After 75m there is another fingerpost pointing left.

Continued from Point 5

Follow this direction for 500m to T-junction of footpaths with wooden kissing gate on the right.

6

Turn sharp left here steeply uphill for 60m. When you meet a crossing path [well trodden but not designated public footpath] turn right onto this and proceed for 350m to its end, at which point you meet a crossing tarmac and gravel driveway. Turn left and follow this track as it curves round to the left [a deep gully is on your right].

7

When you come to an entranceway with 2 stone pillars, a kissing-gate and a cattle grid, carefully cross the cattle-grid into **Denne Park**. Continue forward on concrete and stone track for 160m. At junction with smooth tarmac roadway, stop and look diagonally across open ground to your right. You will see a pair of old unused metal gateposts set in concrete which are just shoulder high. Aim across the grass to go between them. Continue forward roughly in the same direction.

8

Ahead in the opposite field boundary there is a kissing gate known as "Otton's Stile" which you will need to go through. A finger post beside it points in the direction to cross the driveway of **Denne Park House**. Follow this path, keeping to the right of way as guided by the finger posts through the golf course and around its buildings [marked as **Home Farm** on the O.S map] till you come to a tarmac driveway at another fingerpost. In front of you is the Golf course car park...

Continued from Point 8

[**Woody's Café** is amongst the buildings on your right]. Turn left here onto the tarmac driveway and keep straight ahead for 40m to another fingerpost which points towards a grassy track. This passes along-side a laurel hedge belonging to a property on your right.

9

Go through a gap at the side of the field-gate ahead and a new house faces you. Cross over stony driveway and enter a footpath on the left of the house going between fences [fingerpost points the way with ditch on left]. Go over a small footbridge and cross into the next field, then go over a stile, go ahead again to next stile at the left hand side of a big field gate which may be open. Continue ahead to cross the next field to yet another stile. Go over it and at the far side of this fourth field go over the stile to meet a very deep rutted track. Cross straight over it and proceed over a plank-bridge which leads you onto a footpath (beware of rabbit holes). Further along you go over 2 footbridges; proceed onwards.

10

Eventually you join Kings Lane cul-de-sac. Turn left and in 100m at the T-junction turn right. Walk along pavement across **Southwater Street Bridge** and turn right down the steps you ascended on the outward route in order to retrace your way back to Worthing Road and your bus stop.
