FIELD BOUNDARY

1

From the **Visitor Centre** walk towards the car park, turn right out to Cripplegate Lane and cross over into **Stakers Lane**. Proceed along Stakers Lane for approx 200m and at a gate on your left go through the pedestrian passing place (hereinafter called chicane). Take path diagonally across the field for approx. 100m passing the skateboard park; this will be on your right. Go through the chicane and cross bridge over the stream. Immediately turn right and continue on this stony path, bearing left up hill. At a T junction of paths with lake in front of you turn right. Continue for approx. 250m with lake on your left, to the next chicane

2

Go through chicane and head straight on (due north) along path overhung with shrubbery for 450m to reach Allotment Field.

3

At this point there is a water tap on a post by the **Allotment Field**. Walk straight forward keeping allotments on your left with a hedge on the right. Continue for approx. 430m all the way to the top of the field, ignoring any gaps on the left.

4

At the apex of the field find a gap in the shrubbery with a little bank and exit via this onto a tarmac surface and turn left. This was the old Reeds Lane and is a bridleway. Continue down this path passing the metal barrier for the allotments on your left.

5

Proceed past **Easteds Farm House** on your left and also **Easteds Barn** a little further on, before coming to the road junction with Cedar Drive. Turn left, go past entrance to Nutham Lane and take next left into **Cripplegate Lane** by the bus stop.

Cross over onto the pavement turning left; carry on along pavement for 340m to the junction with Station Rd.

6

Cross **Station Road** at its junction with Cripplegate Lane, continue on the pavement for 40m and turn right through metal chicane. After 10m turn left to return to the Visitor Centre.

There are 2 shorter options as indicated.

OPTION A**1.4 km / 0.9 miles**

For this shorter walk, follow route to beginning of **point 2**.

A

Proceed left to meet Cripplegate Lane, cross over road, turn left to walk on pavement for 200m. To continue, return to **Point 6**.

OPTION B**2.2 km / 1.4 miles**

Follow route to beginning of **point 3**.

B

At the water tap on a post turn left and exit the Allotment field at metal barrier. Turn left on to the lane and to continue follow instructions from **point 5**.
